March 20, 2013

Jill Duerig
General Manager
Zone 7 Water Agency
100 North Canyons Parkway
Livermore, CA 94551

Jill:

The Alameda Creek Alliance enthusiastically supports the *Zone 7 Arroyo Mocho Stanley Reach Riparian Restoration and Channel Enhancement Pilot Project*. We also support the mitigated negative declaration for the project. This is an important fish passage and pilot restoration project for attempts to bring native fish back to the watershed.

This project will be a model for habitat restoration for native fish and wildlife within an urban flood control channel, while maintaining beneficial uses for flood control, sediment management and groundwater recharge.

Alameda Creek Alliance volunteers will be available to help with ongoing vegetation maintenance and monitoring at the restoration site.

We look forward to continuing to work with Zone 7 to implement additional habitat restoration projects identified in the Stream Management Master Plan.

Sincerely,

Jeff Miller, Director
Alameda Creek Alliance
